

MITUL NAYAKWADI

Computer Science Engineering Student — AI Enthusiast — Full-Stack Developer

📞 +91 7013323577 • ✉ mitulnayakwadi@gmail.com • 🔗 LinkedIn • 🌐 Portfolio • 🐙 GitHub
📍 Hyderabad, Telangana

Professional Summary

Computer Science Engineering undergraduate with strong foundations in Python, Data Structures, Machinelearning & AI, and Full-Stack Development. Experienced in developing cloud-based applications, AI-powered projects, and scalable web solutions. Passionate about solving real-world problems through software engineering, cloud technologies, and modern development practices. Active participant in technical communities, hackathons, and industry learning programs.

Education

Bachelor of Engineering (Computer Science Engineering)

Matrusri Engineering College, Hyderabad

2024 – 2028

Intermediate (MPC)

Excellencia Junior College, Hyderabad

2022 – 2024

Percentage: 92.4%

Secondary School

Sri Saraswathi Sisu Mandir, Hyderabad

2022

CGPA: 9.3

Technical Skills

- **Programming Languages:** Python, Java, C
- **Web Development:** HTML, CSS, JavaScript, Flask
- **Databases:** SQL, Database Design
- **Cloud Technologies:** AWS, Google Cloud
- **Artificial Intelligence:** Generative AI, Machine Learning Fundamentals
- **Developer Tools:** Git, GitHub, VS Code
- **Core Computer Science:** Data Structures, Algorithms, OOP, Problem Solving

Key Projects

Medico AI — AI-driven medical assistance system

GitHub Repository

Stack: *Python* — *Streamlit* — *PyTorch* — *JavaScript* — *HTML* — *CSS*

- Implemented decision logic for preliminary health insights.
- Applied ML concepts with focus on reliability and scalability.
- Built an interactive user interface for accessible medical guidance.

Groundwater DWLR Management System — [SIH Project]

GitHub Repository

Stack: *JS* — *Flask* — *SQL*

- Developed a system for monitoring and managing groundwater DWLR-related records.
- Organized data workflows to support structured tracking and reporting.
- Designed the project with a focus on practical problem-solving and public-impact use cases.

SecureSphere — Cybersecurity-focused web application

GitHub Repository

React — *TypeScript* — *Vite* — *Gemini AI* — *Supabase*

- Developed a cybersecurity-focused web application emphasizing secure software development practices.
- Implemented authentication workflows and security-oriented application architecture.
- Applied backend development principles for scalable and maintainable solutions.

Uppal Kalan Street Food Guide — Location-based local food discovery platform

GitHub Repository

Stack: HTML — *CSS* — *JavaScript*

- Developed a location-based web platform showcasing popular food destinations and local businesses in Uppal Kalan.
- Designed responsive user interfaces for seamless navigation across devices.
- Structured and organized local business information to improve accessibility and user experience.

Experience & Leadership

Google Student Ambassador

2026 – Present

- Represent Google technologies and learning initiatives within the student community.
- Promote awareness of AI, cloud technologies, and software engineering best practices.
- Support student-focused workshops and technical events.

Big-Oh Club Member

2025 – Present

- Participate in algorithmic problem-solving and technical discussions.
- Collaborate with peers on coding challenges and software development activities.
- Strengthen analytical thinking and programming skills through continuous practice.

Certifications

- Generative AI Mastermind – Outskill
- Python Essentials 1 – Cisco Networking Academy
- Python Full Stack Developer Virtual Internship – EduSkills
- Software Engineering Job Simulation – JPMorgan Chase & Co.
- Technology Job Simulation – Deloitte
- Database Design – Infosys Springboard
- What Is Generative AI? – LinkedIn Learning

Achievements

- Earned Google Cloud Skill Badges in Prompt Design and CI/CD Pipelines.
- Completed multiple industry-recognized software engineering job simulations.
- Built and maintained AI, cloud, and full-stack projects available on GitHub.
- Active contributor to technical communities and student development initiatives.

Building solutions where software, AI, and innovation meet.
